

Student Services

Non–Public School Transportation

Resident students who require transportation to a non-public school must submit a written request to the Board of Education by April 1 preceding the beginning of the next school year. Application forms may be requested by calling the transportation office at 407-9500 or submitted online under the Transportation section of the District website.

Food Service

One of the most important ways to help children perform better in their classrooms is to provide them with the nutrition necessary for the healthy growth of their minds and bodies. Clarence students may purchase a school lunch or breakfast at a reasonable cost. Check the website for current pricing information and account procedures.

Response to Intervention (Rtl)

Response to Intervention (Rtl) is a systematic, evidence–based instruction and intervention program for students in the areas of Reading and Math. School districts are required to have a Response to Intervention program for students in grades K-4.

In Clarence, this program consists of universal screening of all students three times annually, tiered approach to instruction to meet student needs, regularly scheduled progress monitoring of students, and a building-based Rtl team to meet the needs of the teachers and students.

Free & Reduced Price Lunch Program

The District participates in the federally-funded breakfast and lunch program and provides free or reduced priced meals to qualified District students. Information on this program is sent home with every child during the first full week of school. Additional copies are available from the building principals. Children participating in this program will not be identified. Meals will be served to them in the same manner as they are to all students in order to maintain confidentiality.

Point of Sale System

Clarence Schools and the Food Service Office offer an optional, online meal account pre-payment system. The service allows parents a convenient, easy, and secure way to deposit money into their children’s school meal accounts either by a check made payable to Clarence Schools or by registering with the Point of Sale system at www.myschoolbucks.com. Online deposits may be made using a credit card, debit card or a PayPal account. In addition, the online service allows parents to check their children’s current school meal account balances and monitor what items their children have purchased at school.

When a student registered with the point of sale system enters a pre-determined PIN number at the cash register, his or her school picture appears on the screen enabling the cashier to verify the child matches the PIN number. Students may still make cash payments for lunch and snacks.

Support Services

In addition to our regular, comprehensive educational program, the following services are also available to students in the Clarence Central School District on an as needed basis:

- special education for children with educational disabilities;
- remedial reading services;
- standardized testing;
- guidance and counseling services;
- English taught as a second language.

Response to Intervention (RtI)

Response to Intervention (RtI) is a systematic, evidence-based instruction and intervention program for students in the areas of Reading and Math. School districts are required to have a Response to Intervention program for students in grades K-4. In Clarence, this program consists of universal screening of all students three times annually, tiered approach to instruction to meet student needs, regularly scheduled progress monitoring of students, and a building-based RtI team to meet the needs of the teachers and students.
